DAMON GARFIELD

FRONT END WEB DEVELOPER

Clearfield, Utah | damongarfield@gmail.com | Portfolio: https://dgarfield.github.io/

PROFESSIONAL SUMMARY

Senior front-end developer with experience building responsive, accessible web applications since 2014, including six years at MRM and a senior React role at Cayce AI, now building and shipping live products of his own. Deep expertise in semantic HTML5, accessibility best practices, and Sass/SCSS, with a track record of improving performance on enterprise and product sites. Builds reusable, self-contained components, reviews code, and trains and mentors other developers.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), React (Hooks, Context API, Next.js), Vue, HTML5 (semantic markup, ARIA accessibility, SEO), CSS3 (Sass, SCSS, CSS-in-JS, Tailwind), PHP, Node, GSAP

Platforms & Data: WordPress, REST APIs / JSON, MySQL, jQuery

Tools & Workflow: Git / GitHub / Bitbucket, Webpack, VS Code (Prettier, ESLint), Adobe Suite (XD, Figma, Illustrator, Photoshop, AEM), GCP, AWS

Testing & QA: BrowserStack, Litmus, Email on Acid

Marketing Automation: Eloqua, Marketo

EXPERIENCE

Carpenter / Finish Carpenter, Rapid Fire Construction Jun 2026 – Oct 2026
Utah

- Finish carpentry on residential projects; maintained tools, materials, and job-site order.

Remodeling Associate, Walmart May 2025 – Jul 2026
Syracuse, Utah

- Worked overnight remodel shifts resetting store departments, setting digital tags and TV displays, and building new store features and aisles.
- Followed store procedures and safety practices in a large retail facility.

Partner / Co-Owner, Magic Touch Handyman LLC Jan 2023 – Present
Clearfield, Utah

- Run a local service business with a 50/50 partner: scheduling, client communication, written job records, and in-home repair work.

Partner, High Country Home Improvement Jan 2023 – Mar 2025
Clearfield, Utah

- Launched a handyman business; ran social marketing, landing pages, and Thumbtack lead generation.
- Managed client accounts and resolved client questions.

Senior Front End Developer, Cayce AI Jul 2021 – Sep 2022
Lehi, Utah

- Built and updated React components for audio file upload, user management, and transcript search and sort.
- Fixed bugs and improved application speed and performance.
- Reviewed code and collaborated with backend developers on Stripe integration.
- Built marketing pages in React and created a login page.
- Set up GCP for the marketing site.

Front End Developer, MRM Jul 2014 – Dec 2020
Salt Lake City, Utah

- Built pixel-accurate, responsive, localized, accessible landing pages and microsites from UI/UX comps using semantic HTML5.
- Converted localized banner ads, animated and static, into reusable templates, streamlining production.

- Trained international teams to execute localized marketing automation campaigns; mentored developers on best practices.
- Performed QA testing across browsers and devices.

Software Engineer, Boxworks Sep 2012 – May 2014

Salt Lake City, Utah

- Modernized legacy code, porting a legacy in-house language to HTML and PHP.
- Implemented new features and interfaces for the Mill Execution System (MES), factory automation software.
- Fixed bugs across the MES platform.

Full Stack Developer, Special Ops Paintball Mar 2011 – Jan 2012

North Salt Lake, Utah

- Migrated the codebase from a legacy platform to PHP and managed products in Magento.
- Built new features; ran batch queries, mass email campaigns, and pricing updates.
- Migrated the database from SQL to MySQL.

SOFT SKILLS

Problem-solving, creativity, focused, detail-oriented, organized, driven.
